

A Few Tips for Digital Security

Security is a Process

A Few Reminders on Digital Security

Do

- Password protect your Devices
- Take Advantage of Multi-factor authentication
- Do Make Strong Passwords
- Do system and application updates
- Backup systems to the cloud or external hard drive
- Look for the HTTPS or Lock symbol on your browser
- Download applications from trusted stores (Apple App Store, Google Play Store...)

Don't

- Don't click on links from emails unless from a trusted friend AND it makes sense.
- Don't give out personal information
- Don't conduct important business on a public computer or open network
- Don't use a link from an email, go to the business site yourself.
- Don't download applications from unknown people
- Don't click on pop-up ads.
- Don't give information to a caller. Ask for a return phone number
