

Redwood Shores Fall Schedule(1st and 3rd Wednesday of the Month)

Redwood Shores Library: 399 Marine Parkway, Redwood City

All classes are held in the Room D

Cost : \$20 for all 5 Classes or \$5 per class

To attend, Please email info@anewvista.com (Payment will be collected at the class)

Wednesday, January 15, 2020 (10:30 AM - 12 Noon)

Why Social Media? – In this lecture, students will learn about how Social Media impacts all of our digital lives. They will receive brief overviews of Facebook, Twitter, Instagram, SnapChat, YouTube and much more.

Wednesday, February 5 2020 (10:30 AM - 12 Noon)

Cyber Security – In this lecture, students will participate in a practical discussion about common cyber security threats. The students will understand the difference between a “fake” email and a real email, learn about password management, safe browsers and how to make them better and which device they should use in terms of security.

Wednesday, February 19, 2020 (10:30 AM - 12 Noon)

In-Home Monitoring – As we age, our homes can become dangerous places, especially if we live alone or have health problems. There are many technologies being used for In-Home monitoring. This class will inform you about such technologies. (In-Home Monitoring will be done at a future date, Sorry)

There was a mistake in the schedule - Pilot has “Into the Google Verse” published on Feb19th and we will do the Google Verse

<https://www.scribd.com/document/447193381/The-PILOT-February-2020>

Into the Google Verse

Google is everywhere but it is more than web browser or gmail. Understand what google and their business model is. The course will cover Google Apps, Google Photos, Google Drive and a high level understanding of the Google universe, as well as the trade-offs

Wednesday, March 4, 2020 (10:30 AM - 12 Noon)

Bitcoin - How it Works? – In this talk we understand the future of digital currency. Some of the topics touched upon will be the need for trust, Clever cryptography, Blockchain and cryptocurrency.

Wednesday, March 18, 2020 (10:30 AM - 12 Noon)

Messaging and VPN – There are many ways of messaging. Phone text, iMessage(mac integration), Whatsapp, Wechat. Will go over some Pros and Cons. Will cover basics of VPN also.
